

FAG VIP – TARGET

Hereby we would like to present you our new reference plate for plate readers:

Its high lights are:

- absolute reference on **corroded glass** with 28,3% surface covering on a 50L/cm screening, let in grey plastic
- cable (Firmware- programming cable, if necessary add calibration cables) and programming plug (Firmware upgrade for older devices with internal upgrade plug only by the service)
- Software “VIPTARGET” to the examination of the measuring instruments, which can :
 - o Print an assessment report of each individual check saved in a database,
 - o Print all examinations in a definable period for one device (serial number) or all devices
 - o typical data from database like date, operator, remarks, print date
