

The FAG logo consists of the letters 'FAG' in a white, serif font, set against a red background that is divided into three vertical stripes.

HIGH END SOLUTIONS for PREPRESS, PRINT and PACKAGING

PRESTODX

FAG PRESTODX Basic the all in one Densitometer for the pressroom

The FAG PRESTO DX Basic Densitometer is the easy to use device for the press room. The high contrast, zero power display never goes off and shows the most recent measurement data even the next day.

You can configure the device to compare measurements to internal density and dot gain references .

The PRESTO DX offers a 4 jobs with up to 8 reference color definitions each. The closest color is detected automatically and the delta E is displayed.

*This product is also interesting it can be upgraded to **Presto DX Full** with all spectrometric function just with a code*

*Ideal for
fixed color
printing*
